PROJECTS

Automated E-commerce Testing

- ✓ Automated testing for an e-commerce website focusing on user registration, product search, cart management, checkout process, and payment gateway integration.
- ✓ Ensured critical user flows function correctly and handled scenarios like invalid inputs and failed transactions.

SKILLS

Programming Languages

- **Java:**
 - ✓ Developed and maintained test automation scripts using Java and Selenium.
- **SQL:**
 - ✓ Wrote complex SQL queries to validate data integrity and application functionality.
- **JavaScript:**
 - ✓ Utilized JavaScript for automating web application testing with Playwright.
- **HTML/CSS:**
 - ✓ Designed and styled web pages to match client requirements.

Test Automation

- **Selenium:**
 - ✓ Implemented automated test scripts for web applications using Selenium.
- **Playwright:**
 - ✓ Created test automation frameworks using Playwright to ensure cross-browser compatibility.
- **TestNG/Mocha:**
 - ✓ Used TestNG and Mocha for structuring and executing automated test cases.

Tools

- **Git:**
 - ✓ Managed source code and version control using Git.
- **JIRA:**
 - ✓ Tracked and managed bugs and project tasks with JIRA.
- **Postman:**
 - ✓ Tested and validated APIs using Postman.

Soft Skills

- ✓ Eager Learner: Continuously seeking opportunities for professional growth.
- ✓ Team Collaboration: Effectively working in team settings to achieve project goals.
- ✓ Problem Solving: Strong analytical skills and attention to detail.
- ✓ Adaptability: Quickly adjusting to new technologies and work environments.

CERTIFICATIONS & AWARDS

- ✓ Java Full Stack Developer Certification, Jspiders
